PROFILE SUMMARY

Motivated and Detail-oriented BCA student specializing in Cybersecurity, Ethical Hacking, and Digital Forensics. Proven ability to develop Python-based security tools, perform vulnerability assessments in controlled environments, and contribute to cybersecurity research and documentation. Award-winning researcher actively seeking internship or entry-level roles in global organizations.

EDUCATION

**YENEPOYA UNIVERSITY
BENGALURU, KARNATAKA
2023 - PRESENT**

- Bachelor of Computer Applications – Cybersecurity, Ethical Hacking, Digital Forensics
- CGPA: 9.4 / 10 (Till Semester 5)

**MSS PUBLIC SCHOOL, CALICUT
2019 - 2021**

- Graduated with 80%

**SACRED HEART HSS , KANNUR
2018 - 2019**

- Graduated with 99%

WORK EXPERIENCE

Cybersecurity Researcher & Developer

ZecurX Cybersecurity Pvt Ltd | Hybrid

Oct 2025

- Conducted cybersecurity research on threat landscapes, emerging attack trends, and competitor security tools to support internal research initiatives.
- Authored research papers and internal reports supporting product strategy and business growth.
- Contributed to security tool feature research and roadmap planning.

Offensive Cybersecurity Intern

InLighnX Global Pvt Ltd | Remote

Jun 2025 - Aug 2025

- Performed ethical hacking, threat modeling, offensive security tasks.
- Assisted in penetration testing and vulnerability research using Python and security frameworks

Cybersecurity Intern

Corizo | Remote

Dec 2023 - Jan 2024

- Conducted network reconnaissance, port scanning, and foundational security analysis.
- Documented findings and suggested risk mitigation measures.

SKILLS

- Phishing Simulation
- Penetration Testing
- Security Documentation
- Network Security
- Network Reconnaissance
- Vulnerability & Risk Management
- Threat Intelligence
- Web Application Security Testing

PROJECTS

WiBreak - Deauthentication Launcher (GUI)

- Created a wireless deauthentication attack simulator for educational and controlled lab learning.
- Focused on UI and modular command execution.

SOFT SKILLS

- Analytical Thinking
- Team Leadership
- Problem Solving
- Team Collaboration
- Time Management
- Documentation & Reporting

CERTIFICATIONS

- Google Cybersecurity Specialization
- Fundamentals of Cybersecurity
- Cisco Network Security
- Ethical Hacking Essentials -(EC-Council)

ACHIEVEMENTS

- 1st Prize – Cybersecurity Poster Presentation, IBM ICE Day 2024
- 1st Prize – Enigma Project, YenioTech 2025
- 2nd Prize – Technical Paper Presentations, IBM ICE Day 2025
- 5th Prize – Triada CTF 2025

NetRecon – Network Reconnaissance Tool

- Performed automated network reconnaissance to identify live hosts, open ports, and active services.
- Conducted TCP/UDP port scanning and service version detection using Nmap.

QRPhish – QR Code-Based Phishing Toolkit

- Developed a phishing simulation toolkit for educational purposes
- Implemented QR-based attack vectors and URL redirection.

ObfusPro – Payload Obfuscation Toolkit

- Built script modules implementing XOR and Base64 payload obfuscation techniques for learning malware evasion concepts in a controlled environment.
- Focused on anti-detection concepts.

Enigma – Advanced CLI-Based IoT Security & Automation System

- Designed a command-line based IoT security and automation system.
- Implemented RFID/NFC-based access control for secure device authentication.

AIDER – Advanced Intrusion Detection & Enhanced Review

- Developed a Unix-based auditing tool for system integrity verification and intrusion review.
- Implemented process monitoring and system checks to detect suspicious activities.
