PROFESSIONAL SUMMARY

Detail-oriented Cybersecurity professional pursuing BCA in Cybersecurity, Ethical Hacking & Digital Forensics (CGPA: 9.4/10). Experienced in vulnerability assessment, security auditing, GRC documentation, and compliance analysis. Adept at conducting risk assessments, drafting security policies, and supporting information security audit engagements. Proven ability to work with tools like Nessus, Nmap, Wireshark, and Metasploit, with a strong foundation in ISO 27001, network security, and threat analysis. Award-winning researcher with hands-on internship experience across offensive and research-driven cybersecurity roles. Holds industry certifications including Google Cybersecurity Professional, Certified ISO/IEC 27001 Information Security Associate, Certified Junior GRC Analyst. Seeking to contribute compliance framework and information security over organizations for the growth.

EDUCATION

Bachelor of Computer Applications — Cybersecurity, Ethical Hacking & Digital Forensics <i>Yenepoya University, Bengaluru CGPA: 9.4 / 10</i>	2023 – 2026
MSS Public School, Calicut, Kerala <i>Higher Secondary — 80%</i>	2019 – 2021
Sacred Heart HSS, Kannur, Kerala <i>SSLC — 99%</i>	2018 – 2019

WORK EXPERIENCE

Cybersecurity Researcher & Developer <i>ZecurX Cybersecurity Pvt Ltd (Hybrid)</i>	Oct 2025 – Apr 2026
- Conducted in-depth research on 10+ attack vectors and threat landscapes; improved threat documentation efficiency by 25% - Authored structured research reports and internal security advisories supporting compliance and risk strategy - Performed security tool feature analysis, mapped CVEs to risk profiles, and contributed to vulnerability advisory documentation - Supported policy review activities and drafted risk assessment summaries aligned with information security standards	
Offensive Cybersecurity Intern <i>InLighnX Global Pvt Ltd (Remote)</i>	Jun 2025 – Aug 2025
- Performed network reconnaissance, port scanning, and attack surface mapping using Nmap and Metasploit in controlled lab environments - Assisted in penetration testing, vulnerability research, & risk identification across systems & applications - Documented scan findings, mapped vulnerabilities to CVE databases, and prepared structured remediation reports	
Cybersecurity Intern <i>Corizo (Remote)</i>	Dec 2023 – Jan 2024
- Conducted vulnerability assessments and basic security checks on simulated environments - Documented findings and recommended risk mitigation strategies in structured security reports	

KEY PROJECTS

AIDER — Advanced Intrusion Detection & System Monitoring Tool

- Built a Unix-based tool for real-time process monitoring and anomalous activity detection; simulates IDS/IPS monitoring workflows
- Demonstrated capability for continuous system surveillance and threat detection reporting — directly applicable to SOC and audit environments

NetRecon — Network Reconnaissance Tool

- Automated live host detection, open port discovery, and service identification using integrated Nmap (TCP/UDP scanning)
- Produced structured scan output with risk-ranked findings, like commercial VA tools like Nessus

ISO/IEC 27001 Risk Register & SoA (GRC Project)

- Built ISMS risk register and Statement of Applicability (SoA) in Excel
- Conducted risk assessment (likelihood × impact) and control mapping (Annex A)

QRPhish — Phishing Simulation Toolkit

- Developed QR-code based phishing simulation for security awareness training; modelled real-world social engineering attack vectors
- Demonstrates understanding of human-layer threats relevant to security awareness programs and GRC compliance

ObfusPro — Payload Obfuscation Toolkit

- Implemented XOR and Base64 obfuscation modules for malware evasion research in a controlled lab environment
- Deepened understanding of attacker evasion techniques to support threat modelling CVE analysis

TECHNICAL SKILLS

Security & Audit : Vulnerability Assessment, Penetration Testing, Network Security, Risk Analysis, Threat Intelligence, Log Analysis, CVE/CERT Advisory Research, Security Documentation, Phishing Simulation, Compliance Analysis, Policy Review

GRC & Compliance: [ISO 27001, ISO 22301, ISO 9001, GDPR, DPDP Act 2023(Awareness)], Information Security Audit Support, Risk Assessment, Security Policy Documentation, Remediation Planning, Risk Registers, Audit Checklists, SOP drafting

Tools : Nessus, Metasploit (Basics), Nmap, Wireshark, Burp Suite, Nikto, Kali Linux, Parrot OS

Programming: Python, Bash (Linux Scripting), SQL (Basics), C/C++ (Basics)

Networking : TCP/IP, HTTP/HTTPS, DNS, Firewall Concepts, VPN, IDS/IPS, Network Reconnaissance, proxy/web filtering Awareness, Gateway security

Other : MS Office (Word, Excel, PowerPoint), Security Report Writing, Threat Documentation

Soft Skills : Analytical Thinking, Attention to Detail, Problem Solving, Team Leadership, Documentation & Reporting, Team Collaboration, Time Management,

CERTIFICATIONS

- Certified Junior GRC Analyst (JGA) – (2026)
- Certified DevOps Engineer (JDE) – (2026)
- GDPR & Compliance Foundation — Coursera (2026)
- ISO/IEC 27001:2022 Information Security Associate — (2026)
- Google Cybersecurity Professional Certificate — Google (2025)
- Ethical Hacking Essentials (EHE) — EC-Council (2024)
- Cisco Network Security — Cisco Networking Academy (2024)
- Certified Cybersecurity Educator Professional (CCEP) — (2025)
- Fundamentals of Cybersecurity (2023)
- Certified Professional Penetration Tester (CPPT) – In Progress

ACHIEVEMENTS

- Top 10 Finalist — IBM National Hackathon 2026
- 1st Prize — Enigma Project, Yeniot Tech 2025
- 1st Prize — Cybersecurity Poster Presentation, IBM ICE Day 2024
- 2nd Prize — Technical Paper Presentation, IBM ICE Day 2025
- 5th Rank — Triada CTF 2025
